This is the request from the Senate Ethics Subcommittee that we have been talking about. Note that Sanders' discussions with [REDACTED] relate directly to what Tony testified about this morning before the House Government Operations Subcommittee on Government Information and Individual Rights. Can you find out from George Clarke the details on how Justice arranges for background investigations on attorneys in criminal cases. I would like for us to get together with [REDACTED] to talk about this tomorrow (Wednesday). I will call you with a time and place.
